

EXERCISE # 3C

Income Calculations

For each of the exercises, determine the family size and family income for each child and pregnant woman in the family.

You can complete this exercise online using this electronic version of the Income Calculation Worksheet. Just complete the fields using the exercise instructions, remembering to press the 'Enter' key after each entry. Some mathematical calculations (blue colored fields) will be updated automatically for you, but you will be expected to correctly complete others (colored yellow). Remember to press the Enter key after filling an amount. When completed you can print the form and keep it for future reference.

EXERCISE # 3C:

A mother is applying for 3 children, her 6-year-old and 11-year-old sons from a previous relationship and her 9-month old daughter with her boyfriend. The 6-year-old and 11-year-old each receive \$200 in child support every month. She receives \$400 Unemployment every two weeks and \$600 alimony each month. Her boyfriend works full time and is paid \$1500 on the 5th and 20th of each month. There are no childcare expenses.
